

## KEY CUSTOMER BENEFITS

With StorageTek® Email Content Manager software, your business will benefit from:

**Improved performance, decreased risk.** Scalable Email Content Manager software eliminates message saturation, frees server space and ensures fast access to archived emails.

**Increased or unlimited mailbox size.** Email Content Manager software improves or eliminates size restrictions on email mailboxes and, potentially, email messages and their attachments.

**Powerful administrator tools.** Allows you to control email storage and retention and set customizable content limits and alerts.

**Fast, enhanced virus recovery.** Can identify and eliminate messages with subject lines and attachments of known or suspected viruses.

With StorageTek® Email Regulatory Manager software, your business will benefit from:

**Regulatory compliance.** Email Content Manager software supports SEC email storage requirements. Email Regulatory Manager meets NASD and SEC supervisory rules for email review, classification and retention.

**Easy, cost-effective email management.** Email Regulatory Manager includes all the email storage and content management features found in Email Content Manager and Email Archive Manager.

*Email Xcelerator™ software family benefits:*

**Low cost archiving.** Integration with StorageTek Application Storage Manager™ (ASM) software for NT operating systems and ASM software for Unix operating systems allows migration to cost-effective tape libraries.

**Ease of use.** Fast installation and auto discovery ensure an immediate, reliable solution with minimal IT effort.

## ■ Email Content Manager software

## ■ Email Regulatory Manager software

### **Manage email storage and content, simplify compliance, minimize costs with ease**

The ballooning size, number and importance of emails have made messaging storage a critical issue. For large companies who need to control email for legal or other reasons as well as for regulated businesses, the problem can be even more challenging. As part of StorageTek's Email Xcelerator™ software family, the Email Content Manager software and Email Regulatory Manager software products meet these challenges with phenomenal ease.

### **Email Content Manager software ensures control while meeting mandates**

Tightly integrated with Microsoft Exchange and Lotus Domino / Notes, Email Content Manager email archiving and management software automatically captures, indexes and archives incoming and outgoing email messages and attachments. Transparent to end-users, it provides fast access to indexed emails and attachments stored in original form.

For email administrators, Email Content Manager software ensures unprecedented control with customizable rules, batch and real-time archiving, easy lifecycle management, powerful search and retrieval capabilities, and automatic management of storage resources on messaging servers. It also maintains email as communication records for compliance with SEC, NARA, FOIA and DoD regulations, as well as ARMA guidelines.

**STORAGETEK**

## Email Regulatory Manager simplifies SEC and NASD email compliance

Email Regulatory Manager software goes further, focusing on meeting SEC and NASD supervisory requirements for financial business email. This powerful software identifies and monitors email for compliance, allowing you to sample, review and classify internal and external messages while meeting lifecycle and retention rules. Customizable words and alerts ensure immediate notification of infractions and stop problem emails from being sent. Plus, Email Regulatory Manager includes all the email storage and management features found in Email Content Manager and Email Archive Manager.

## Seamless storage controls storage costs

Choose to add StorageTek's unique software product, Application Storage Manager™ (ASM), and you can integrate tape and disk into a seamless storage system and control storage costs throughout the information lifecycle. This lets you easily manage data across a multi-tiered storage hierarchy, including automatically migrating email assets from the server to economical tape.

## THE EMAIL XCELERATOR SOFTWARE FAMILY

### Email Archive Manager

Simple, cost-effective, server-based email storage management for smaller organizations.

### Email Content Manager

High-performance, automated email management for enterprise messaging systems.

### Email Regulatory Manager

Email monitoring and review tool for regulated financial organizations.

### Email Content Manager software specifications

#### System software

##### Server

Windows NT Server 4.0 or Advanced Server with SP4 or higher

Windows NT 4.0 Option Pack (includes IIS and SMTP server)

Windows 2000 Server or Advanced Server

#### Supported email systems

Microsoft Exchange 5.5 and 200 with Outlook 98 Corporate or newer  
Lotus Notes 4.6 and higher

#### Minimum server hardware

400 MHz Pentium or faster  
256 MB system memory  
8 GB free hard drive space  
Local CD-ROM drive

#### Removable media file systems supported

OTG (Erasable Optical, WORM, Tape, DVD-RAM, CD-R)  
NTFS (Erasable Optical)  
ISO-9660, HSG, Kodak Photo-CD, multi-session (CD-ROM)  
TAR

#### Removable media supported

**Tape**  
WORM  
Erasable optical  
DVD-RAM  
CD-R
